

Excellence through understanding

## Health & Safety Training 2017

1 day course

08:00 – 16:00

Date and Venue TBA

### Accident and Incident Investigation

This course is designed to equip employees with the various incident and accident investigation tools / systems when an emergency response is necessary, as well as how to implement control measures in the workplace. Case studies are used to encourage discussion around the relevant documentation on how to lodge a claim for compensation with the Compensation Commissioner, and the importance of understanding the Occupational Health and Safety Act.
